Education

University of California, San Diego
Ph.D. in Economics, fourth-year student (2023-2028)

Barcelona School of Economics
M. Sc. in Economics and Finance (2021)

Sant'Anna School of Advanced Studies & University of Pisa
M. Sc. in Economics (2020)

University of Pisa
B. Sc. in Economics (2018)

Past Employment

Now-Casting Economics, Sr. Economist (2021-2024)

London Business School, Research Associate (2022-2023)

CEPR, RA for Prof. Lucrezia Reichlin, Veronica Guerrieri, Silvana Tenreyro (2023)

Research Interests

Macroeconomics, Econometrics

Working Papers

The Macroeconomic Effects of Global Supply Chain Shocks. 2025. [PDF] (*under review*)

This paper provides evidence that global supply chain shocks are key drivers of business cycle fluctuations, introducing a novel identification strategy based on a narrative analysis of price surcharges from the three largest container shipping companies. Negative shocks cause a persistent rise in consumer prices and a prolonged decline in economic activity. Sectoral impacts vary with exposure to global supply chains, measured by the share of inputs sourced from abroad. Spillovers extend to non-tradable sectors. These shocks accounted for up to 45% of the post-pandemic inflation. Without monetary or fiscal stimulus, recovery would have taken 18 months longer.

Awards: IAAE 2026 Best Student Paper, Honorable Mention; Walter Heller Memorial Prize (Best 3rd Year Paper UCSD Econ)

A Hundred Years of Business Cycles and the Phillips Curve. 2025. With Lucrezia Reichlin and Giovanni Ricco [PDF] (*R&R The Economic Journal*)

This study investigates the US business cycle dynamics since 1900 using a multivariate framework that imposes minimal economic restrictions. A key finding is the presence of a significant negative correlation between inflation and economic slack, at business-cycle frequencies. This relationship is robust across over a century of data, with stable coefficients in subsample periods

Ongoing Projects

Micro-to-Macro, Time Fixed Effects and Identification Failure. With Graham Elliott

Microfounding Uncertainty as a Learning Process of Rare Events.

Nowcasting Inflation. With Caterina Grossi, Lucrezia Reichlin and Giovanni Ricco [Early Draft]

Presentations

2026: Spring Midwest Macroeconomics Meeting; SED Annual Meeting Athens; BSE Summer Forum 2026; IAAE Portugal 2026; Piraeus International Economic Conference, University of Piraeus;

Oslo Macro Conference 2026, Norges Bank; CEM-SNDE Conference, Reserve Bank of Australia; Macroeconomic Seminar Series, UCSD.

2025: Southern California Applied Economics (SOCAE) Conference, UCLA; Macroeconomic Seminar Series, UCSD.

2024: Macroeconomic Seminar Series, UCSD.

2023: VII Annual Santiago Macro Workshop, PUC-Chile; University of Porto; Macroeconomic Seminar Series, UCSD.

Honors and Awards

Walter Heller Memorial Prize (Best 3rd Year Paper UCSD Econ)
IAAE 2026 Best Student Paper Award, Honorable Mention
Zhao Family Research Fellowship, UCSD, for the most promising research in econometrics (2026)
Graduate & Professional Student Association Travel Grant Award, UCSD (2026)
Research Fellowship, UCSD. Sponsor: Prof. James D. Hamilton (2026, 2025, 2024)
Travel and Research Grant, UCSD Economics Department (2026×4, 2025)
Teaching Assistance Excellence Award, UCSD (2025)
Regents Fellowship, UCSD (2023)
Summer Research Fellowship, UCSD (2023)
Summer School Scholarship, The Julius Maximilians University of Würzburg (2021)
Unicredit Foundation MasterScholarship, Barcelona School of Economics (2020)
Graduate Merit Award, Barcelona School of Economics (2020)
Leonardo SPA Merit Award, University of Pisa (2020, 2019, 2018, 2017, 2016, 2015)

Teaching Experience

University of California, San Diego
Cross-Sectional Econometrics, Ph.D. Core sequence (2026, 2025)
Panel Data Econometrics, Ph.D. Core sequence (2026, 2025)
Introductory Econometrics, undergraduate sequence (2025, 2024)
